

Paradise Valley FFA and Agriscience

So you're going to high school and you need an elective or two. We got just the one for you!

Take Agriscience!

Today during our presentation you will learn about our unique classes that have qualities similar to popular electives. Like the hands-on part of shop classes and the project making aspect of ceramics. Even more than that, if sitting in a chair all period isn't your kind of class, this is perfect! Plus, you get to be part of the National FFA Organization. Through that you will have many opportunities to pursue your own interests, make friends all over the place and above all, have fun! Listen to our presentation closely and be sure to ask any questions you have. We hope you enjoy it!

These classes sound great!

How do I sign up?

To sign up for Agriscience classes go and see your guidance counselor and tell them you want to take Agriscience at Paradise Valley High School. If you're not going to PVHS don't worry, the school district provides busses to transport you to and from your classes. If you are having trouble registering for our classes please contact Mr. Norris, the Agriscience teacher at PVHS, through e-mail at knorris@pvlearners.net.

We can't wait to see you all there!
